

COLLISION REPAIR INFORMATION

FOR THE TOYOTA DEALER

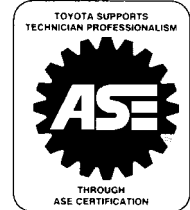

TITLE: 1991 TOYOTA PAINT AND REFINISH
FORMULA CODES

PAGE 1 of 3

SECTION: REFINISH BULLETIN #41

MODELS: ALL MODELS

DATE: NOVEMBER 1990

Attached for your reference is a listing of all applicable 1991 paint codes and refinish formula codes for the following paint manufacturers: BASF, PPG, Sherwin-Williams, DuPont, Sikkens, Herberts Standox and Spies-Hecker.

- The paint color code is found on the driver's side door or door jamb on the Certification/Regulation label (white vinyl label).
- All colors listed in **bold** and designated with an "N" are new colors for 1991. Carryover colors are designated with a "C".
- All colors listed as pearl (P) or metallic (M), have a clearcoat finish.
- Where two numbers are listed for one paint code, the first number is the base coat, the second number is the mid- or pearl-coat.

For Sikkens, BASF/Glasurit, Herberts Standox and Spies-Hecker, the reference codes can be found by using "TOY" as the prefix to the Toyota color code.

Example: 045 White is "TOY045"

NOTE: Please contact your local paint representative for the actual paint mixing formula, or if you encounter color match problems.

1991 TOYOTA PAINT CODES AND COLOR NAMES

	Toyota Paint Code	BASF/R-M	DuPont	PPG	S/W
